

PROJECT REPORT

ALICE SMITH INTERNATIONAL SCHOOL - 2011

Ecoteer Responsible Travel provides this report in response to the efforts and generous donation made by Alice Smith International School. Detailed within are the projects undertaken, expenditure, ongoing work and thoughts for the future.

CLEANING UP...

We would firstly like to thank you for involvement and generous contribution to our project this year. We hope your group enjoyed and learned from the presentation given by our staff.

Our project this year has been focused on the protection of endangered Green Sea Turtles through direct action such as patrols guarding against poachers and beach cleans to education and community programs such as our weekly educational club.

As part of your visit earlier this season we were pleased to work with your group on a beach clean. This is an extremely important activity as pollution is a big problem on the Perhentian Islands. Aside from causing otherwise idyllic beaches to look unsightly, the assorted waste including degraded plastics and fishing lines poses a great hazard to sea turtles and other marine life.

Item	Cost
Transport for Presentation.	RM20
Transport for Clean.	RM90
Rakes.	*
Sacks.	*
Total:	RM110
* Inc in costs on next table.	

SCHOOL PAINTING...

The major focus of your groups visit to our project was the painting of the classroom in which we conduct our weekly 'Turtles Need Trees' club. It was a great day with your group providing creative designs for everyone to paint.

Although the classroom was not finished on the day, we are pleased to tell you that the painting was completed soon after and thoroughly enjoyed by the children. Our volunteers also completed the school welcome sign in a similar style.

Left over paint from this project has been used on village houses and it is also planned to undertake community murals following the monsoon season.

Item	Cost
Return Transport for students.	RM90
Materials Transport.	RM100
Paint, brushes, rollers, trays.	RM758.02
Marker pens.	RM36.80
Mixing pots.	RM65.65
Scrapers and blades.	RM7
Refreshments.	RM50.50
More paint!	RM155
Hardware inc locks.	RM65.50
Total:	RM1328.47

COMMUNITY HOUSE...

Ecoteer House is where our volunteers stay whilst living within the village community. It is rented from a local woman and has been renovated from an empty and dilapidated shell into a hub of activity.

We have worked hard this season to transform the house into a welcoming and creative space and this has proved successful as we have a constant attendance of children taking part in art activities, learning English from our volunteers, watching environmental films, playing games and having fun.

Your contribution has enabled us to repaint the exterior of the property giving it a much-needed face-lift and helping protect the building from the monsoon ahead.

Item	Cost
Materials Transport.	RM50
Paint.	RM918
Thinner.	RM48
Total:	RM1016

GAMES & MATERIALS...

The village head has often spoken to us about his concerns for the youth on the island. Drug use and anti-social behaviour are an increasing problem.

As well as future project aimed at those already on the wrong path we recognise that addressing the cause is better than addressing the symptom. Providing young children with a place to hang out, have fun and also learn new skills (whether they realise they are learning or not).

With this in mind and at the same time as renovating our Ecoteer House, we have used your contribution to purchase games and materials for use by the children.

The first collection of games we purchased was a great success and we have more games now that we are moving into the house as we work on it.

Item	Cost
Scrabble, Connect 4, Twister, Uno, Monopoly, Battleship, Mastermind, Pictoreka, Foam Crafts, Footballs, Water inflatables, Guitar, Various musical instruments, Football table, Word games, Frisbees, Basketball and net, And much more!	RM2477.10
Materials transport.	RM50
Total:	RM2527.10

THANK YOU...

Thank you again for your contribution. It has enabled us to take a great step forward in the protection of the wildlife and education of the children.

As we grow as an organisation and develop our project on the Perhentian Islands, we hope you will choose to work with us again. We would be very happy to discuss our future plans with you, provide presentations at your school or help to develop special programs that suit student's studies.

In 2012 we will be working on:

- Repairing houses for those unable to do so themselves.
- Increasing our educational clubs to include an Environmental Club, English Club and Snorkelling Club.
- Reinstating the once popular village football pitch.
- Starting an English Club for the young men of the Island.
- And much more.

We hope you join us.

Dan and the Ecoteer team.
